BARICLIP

Effective and revolutionary
solution for weight loss

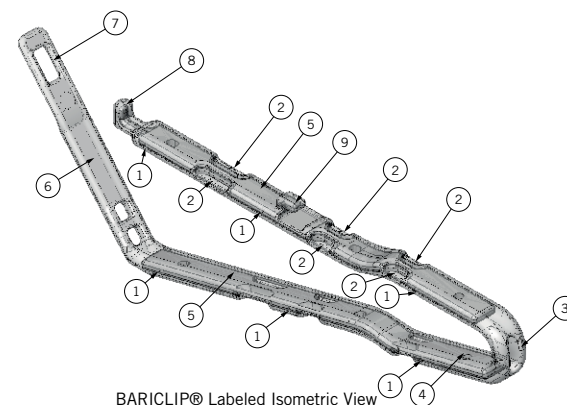

Removable laparoscopic vertical gastroplasty clip for weight loss

BARICLIP

Description:

The BARICLIP® is a laparoscopically implanted, silicone covered titanium device with a low closing pressure placed vertically around the stomach parallel to the lesser curvature of the stomach, and separates the stomach into a restricted medial segment where food would pass and an excluded larger lateral gastric segment (Fig.1). The device restricts the amount of food consumption in severely obese patients (Body Mass Index (BMI) of at least 35 kg/m², or a BMI between 30 kg/m² and 50 kg/m² with one or more obesity related comorbid conditions) without the need for cutting, stapling, bypassing of the stomach or the intestines, or device adjustment. It is indicated for use only in adult patients of age between 18 and 65 years.

BARICLIP® Labeled Isometric View

ITEM NO.	DESCRIPTION
1	Substrate Alignment Pinholes for Silicone Overmolding
2	Indentation Areas for Suturing to Stomach
3	Laparoscopic Placement Device Handle Groove
4	Fluid Path Passageway (inferior BARICLIP® aperture)
5	Anterior and Posterior Clamping Segments
6	Adjustable Clamping Pressure Position Strap
7	Clip Closure Assist Groove
8	Strap Security Locking Pin
9	Clip Closing Latch

WELCOME MESSAGE FROM THE CONGRESS PRESIDENT:

It is my proud privilege and honor to invite you to the **21st Annual Congress of The Egyptian Society for Bariatric Surgery** to be held in Cairo, Egypt on the **27-29 November 2025**.

The Egyptian Society for Bariatric Surgery (ESBS) was founded as a member Society of the International Federation for the Surgery of Obesity and Metabolic disorders (IFSO) in 1999. Bariatric surgery has enjoyed exponential growth in Egypt. **The 21st annual Congress of the ESBS** comes as a landmark meeting. The meeting has an international panel of experts, world-class Middle east and Egyptian bariatric surgery experts and great original studies from Egypt to make the conference a true scientific gathering.

The ESBS 2025 conference is a comprehensive, multi-disciplinary forum where leading national and international experts will conduct a critical review. The Congress shall provide a platform to address and debate on the recent advances and challenges in the field of Metabolic and Bariatric surgery.

Egypt has a rich historic culture and hosts world famous tourists attraction sites. Join us at our conference and enjoy the rich deep culture of Egypt.

PROFESSOR DR KHALED GAWDAT

IFSO President
Congress President
Founder of ESBS

WELCOME MESSAGE FROM ESBS PRESIDENT AND CONGRESS SECRETARY GENERAL:

Dear colleagues,

It is my pleasure to join the entire ESBS executive council along with **the president of ESBS Prof. Dr. Alaa Abbass** in welcoming you to our **21st Annual congress** in Cairo.

This year program is committed to provide tools for bariatric professionals, whether established surgeons or those new to the field, to improve the quality of their practices. This year program contains two preconference courses to be held on **November 27-29, 2025**. The scientific sessions will cover two and half days with a full track dedicated to integrated health professionals, abstract sessions and video sessions. A live surgery course.

I look forward to seeing each of you here as we host our **21st annual Congress**

PROF. DR. MOHEY ELBANNA

Conference Secretary General

PROF. DR. ALAA ABBASS SABRY

ESBS President

THURSDAY 27 NOVEMBER

09:30-12:30	Session 1 (9 minutes presentation 3 minutes discussion)
Chairpersons Khaled Hamdan, Hassan Aldosari, Hany Shehab, Hassan Shaker	
Strategies for a zero leak after Laparoscopic sleeve gastrectomy. Single center experience	Ayman AlNakeeb, Hassan Aldosari
Endoscopic Management of post bariatric surgery complications	Hany Shehab
A single surgeon's experience on revision of LSG to RYGB in the Middle East: patients' characteristics and clinical outcomes	Khaled Hamdan
Accidentally discovered large gastroesophageal mass during sleeve gastrectomy	Mohamed Amar
Surgical Symphony :3d illustrated journey through bariatric procedures standardization	Mohamed El Masry
Impact of Sleeve Gastrectomy and Roux-en-Y Gastric Bypass on Esophageal Physiology and Gastroesophageal Reflux Disease: A Prospective Study	Mostafa Refaie
Physiological Bypass as a Revisional Surgery	Abdu Elbanna
Preliminary results of ring augmented one anastomosis gastric bypass for treatment of weight regain post sleeve gastrectomy	Hossam Mohamed El Ghadban
Status and quality assurance of bariatric surgery and training in Thailand	Komol Chaivanijchaya
12:30-01:00	Coffee Break

THURSDAY 27 NOVEMBER

01:00-03:30	Session 2 (9 minutes presentation 3 minutes discussion)
Chairpersons Jasim Fakhro, Ala Wafa, Mohey ElBanna, Ashraf Al Attar, Ahmed Ibrahim	
Novo Nordisk Symposium (OMMs and Bariatric surgery)	 Khaled Gawdat
Bariatric reoperation 3rd revision	Mahmoud Basho
Laparoscopic sleeve gastrectomy: Myths and facts	Waleed Anber
Cosmetic bariatric surgery techniques using 2.4 mm graspers	Jasim Fakhro
Distalization post OAGB how long is too long	Ahmed Mohamed Yousry
Reoperative bariatric surgery Challenges and mishaps	Mohey Elbanna
Spectrum of jejunal injury and anastomotic leakage after bariatric bypass procedures clinical presentation and management	Ahmed Hosny
Catastrophic disaster after sleeve gastrectomy	Ala Wafa
Global Technical Variations in Roux-en-Y Gastric Bypass: A Worldwide Survey Among IFSO Members	Mohamed H. Zidan
GLP-1 and GIP Changes after Sleeve Gastrectomy and Weight Regain in Adolescents. Do we need a Boost?	Ashraf ElAttar
Crafting tailored solutions in revisional bariatric surgery	Mohamed Hany Ashour
Regained weight post Rou-y-gastric by pass what are my surgical options for weight loss again ?	Mohamed Tag El-Din
03:30:04:00	2nd Coffee Break

THURSDAY 27 NOVEMBER

04:00-08:00	Session 3 (9 minutes presentation 3 minutes discussion)
Chairpersons Sultan Al Temyatt, Mostafa Gamal, Mohammed Abuzeid, Amer Alderazi, Mohamed Hany Ashour, Haytham Fawal	
Why Robotic Bariatric Surgery?	Arun Prasad
innovation in acute leak management post sleeve Gastrectomy	Sultan Al Temyatt
OAGB After VBG	Mohammed Abuzeid
Fracture pancreas after complicated sleeve	Osama Taha
Sleeve gastrectomy in situs ambiguous case	Abd-Elfattah Kalmoush
Pharmacologic Alternatives to Revisional Bariatric Surgery	Aayed Al Qahtani
Incidence and management of perforated ulcers after one anastomosis gastric bypass	Ayman kamal
AI in the future of bariatric surgery	Mohamed Diaa Sarhan
Four years outcomes of OAGB in children and adolescents (Multi-centric Study)	Osama Taha
When bariatric surgery becomes an ongoing nightmare: post sleeve gastrectomy complicated case	Haytham El Maleh
Correcting Roux-en-O to Roux-en-Y Gastric Bypass video presentation	Mostafa Gamal
LIFE-THREATENING BLEEDING POST SLEEVE GASTRECTOMY FROM UNUSUAL SITE	Mohamed Elmanakhly

THURSDAY 27 NOVEMBER

04:00-08:00	Session 3 (9 minutes presentation 3 minutes discussion)
chronic peri splenic abscess due to neglected SG leak	Mohamed El-Emawy
Bariatric Procedure Following Sleeve Gastrectomy: A Careful Introduction of Malabsorption in People with Severe Obesity	Mohamed El Kaseer
Ulcer Storm After Bypass: Hidden Dangers, Hard Lessons	Kareem Sabry
Comparative Analysis of Laparoscopic Sleeve Gastrectomy with and Without Prior Endoscopic Intra gastric Balloon Insertion: Examining Stomach Volumetry, Histopathologic Changes, Hormonal Levels, and Postoperative Outcomes	Anwer Abou El Nasr

07:30	Dinner

FRIDAY 28 NOVEMBER

09:30-11:30	Session 1 (9 minutes presentation 3 minutes discussion)
Chairpersons Christine Stier, Hazem Al Momani, Mohamed Diaa Sarhan, Said ElKayal, Haytham ElMaleh	
Primary endoscopic procedures to treat obesity	Christine Stier
Unpredictable Leaks After RYGB: From Catastrophic to Conservative Management	Kareem Sabry
Late Intra gastric Balloon Complications	Ahmed Abokhozima
A simple laparo-endoscopic technique for refashioning of gastrojejunostomy strictures, following gastric bypass surgery	Ashraf El-Attar
OMM New RCTs and New FDA indications	Hazem Al-Momani
RYGB to treat Sasi leak	Mohamed Shaker
Stapler misfit.. an unfortunate sequence of adverse events	Mohamed Diaa Sarhan
Tailored biliopancreatic limb length VS fixed BPLL in OAGB as redo surgery for weight regain after SG	Mohamed El-Emawy

11:30-12:30	Coffee break and Friday prayers
--------------------	--

FRIDAY 28 NOVEMBER

12:30-03:30	Session 2 (9 minutes presentation 3 minutes discussion)
Chairpersons Ali Khammas, Arun Prasad, Faheem Bassiony, Alaa Abbass, Aayed AlQahtani	
Trans gastric ERCP post gastric bypass	Ali Khammas
The risk profile for late dumping	Christine Stier
Current Consensus on MGB-OAGB Surgery	Arun Prasad
Internal hernia after RYGB with small bowel gangrene during pregnancy	Mohamed Hamdy
Wrong decisions; 3rd revision	Mohamed Sharshar
MASLD & Bariatric surgery	Faheem Bassiony
Small intestinal length measurement using 3d ct volumetry vs In Vivo laparoscopic measurement using pre marked graspers A comparative study	Ahmed Abdelsalam
Revisional bariatric surgery: techniques for managing weight regain and surgical complications	Abdallah Al Lawati
Current Advances in endoscopic and pharmacologic alternatives to revisional bariatric surgery	Aayed Al Qahtani
Delayed Biliary reflux after cholecystectomy years after OAGB	Alaa Abbass
complicated OAGB	Hayssam Fawal
Robotic Bariatric Surgery , A step Forward	Sultan Al Temyatt
Intestinal Obstruction after BMS :video case presentations	Mohamed Hany Ashour

03:30:04:00	Bari Clip Lunch symposium (When Less is More:Bariclip, a new procedure)		Paolo Gentileschi
-------------	--	---	-------------------

04:00:04:30	Lunch symposium Global Bariatric nutrition		Randa Reda , Nese Tagreen
-------------	---	--	------------------------------

FRIDAY 28 NOVEMBER

04:30-06:30	Session 3 (Young IFSO)
Chairpersons Prof. Khaled Gawdat – Egypt Dr. Mostafa Nagy – Egypt Dr. Ala Wafa– Libya	
Call for Collaborative Young IFSO MENAC Work	Mostafa Nagy (Egypt)
More Than a Decade of Experience: Outcomes of the Bikini Line Approach in Bariatric Surgery	Tamer Nabil (Egypt)
Magnetic Bariatric Surgery in Qatar	Jassim Alobaidan Fakhro (Qatar)
Weight Regain After Sleeve Gastrectomy	Sofiene Ayadi (Tunisia)
Digital Health in Metabolic Bariatric Surgery (MBS)	Abdallah El Manuf (KSA)
Tailoring Distal RYGB Using Bowel Length Ratios: Striking the Balance Between Efficacy and Safety	Yasser Tohme (Lebanon)
Pharmacotherapy and Nutrition: A Collaborative Approach to Weight Loss	Nese Targen (United Kingdom)
SADI-S: Current and Future Status	Ala Wafa (Libya)

07:30	Gala dinner

 PROGRAM

SATURDAY 29 NOVEMBER

09:30-12:00	Session 1 (9 minutes presentation 3 minutes discussion)
Chairpersons Esam Batayyah, Mohamed Sharshar, Ibrahim Galal, Kareem Sabry, Mohamed Hany Ashour	
SM BOSS trial	Hazem Al-Momani
Laparoscopic sleeve gastrectomy and gastroesophageal reflux management strategies	Ayman AlNakeeb, Hassan Aldosari
Comparative outcomes of OAGB and Sleeve gastrectomy. A retrospective analysis of weight loss and micronutrient deficiencies in superobese patients in 12 months	Zahraa Futooh
Reflux after gastric bypass	Ahmed Abdelsalam
Handling Coincidental Conditions after Bariatric surgery	Mohamed Hany Ashour
Management of weight regain with gastrogastic fistula post RYGB	Mohamed Mosaad Kandel
The Anatomy of Failure: How MGB Mistakes Create Lifelong Problems	Kareem Sabry
Intra Thoracic sleeve migration an overview	Ibrahim Galal
Continuous glucose monitoring	Caroline Pape
Effect of Roux en Y gastric bypass and sleeve gastrectomy on male sexual dysfunction: A systematic review and Meta analysis	Hebatallah Mohamed, Zaki Jaheen
Gastric remnant perforation nine years after OAGB	Mona Said

12:00 - 12:30	Coffee break
----------------------	---------------------

SATURDAY 29 NOVEMBER

12:30-02:30	Session 2 (9 minutes presentation 3 minutes discussion)
Chairpersons Arun Prasad, Osama Taha, Yaser Amer, Charles Peng Zhang, khaled Katri	
Reflux after OAGB	Haytham Fawal
Unusual Complications of Bariatric Surgery	Arun Prasad
management of chronic gastro cutaneous fistula after SG	Mohamed El-Emawy
Management of intractable GERD after RYGB	Yasser Amer
Novel technique for undoing RYGB after sleeve	Osama Taha
Revision for Relapse of Diabetes After One-Anastomosis Gastric Bypass (OAGB)	Mohamed El-Kaseer
MBS in Patients with idiopathic intracranial hypertension	Tamer AbdelBaki
metabolic surgery for MASLD/MASH	Chrles Peng Zhang
MGB/OAGB : First Firing , First Trap	Mounir Ben Chatouh
Obstructed jejuno-jejunostomy post primary RYGB	Emad Abdallah
Post bariatric Hypoglycemia	Randa Reda

02:30:03:00	Coffee Break
--------------------	---------------------

SATURDAY 29 NOVEMBER

03:00-07:00	Session 3 (9 minutes presentation 3 minutes discussion)
Chairpersons: Ahmed AbdelSalam, Emad Abdallah, Mohamed Hany Ashour, Isorim Sabry	
Reflux related abnormalities 4 year after OAGB (accuracy of endoscopy compared to symptoms and biopsy)	Osama Taha
Correlation of weight loss with residual gastric volume and Morphology after sleeve gastrectomy: A CT based analysis	Mahmoud El-Azawy
Prevalence of steatosis and steatohepatitis in patients undergoing bariatric surgery: a biopsy based study	Ahmed Mehrez
Challenges and advanced techniques in post-massive weight loss aesthetic surgery	Ahmed Gamal
Revision of atypical bariatric surgery	Mohamed Sarhan
Revisional laparoscopic hiatal repair and RYGB after open Nissen fundoplication for recurrent reflux and obesity	Ahmed Abokhozima
Evaluating language Artificial intelligence performance in Bariatric surgery	Hassan El-Masry
Weight regain post RYGB: Surgical options for revision	Mohamed Tag El-Din
Patient selection in OAGB who is eligible	Mahmoud Galal
naturally banded LSG: 2 years follow up , RCT	Alaa El-Sewefy
Measuring small bowel length in revisional surgeries Pros and Cons	Ahmed Abdelsalam
Sleeve gastrectomy in situs ambiguous case	Abd El-fattah Kalmoush
Early diagnosis and management of oesophageal perforation post sleeve gastrectomy	Emad Abdallah
Stomach migration after sleeve gastrectomy	Mahmoud Abd El-aal
07:00 -08:00	Dinner
